Achievements

- **Laravel Project Compilled to Binary:** I worked on the Hospital ERP solution (Medi Spa), Where the client's requirement was to run the code in the clientside without exposing the source code. I Successfully able to make the laravel code to compilled to binary code using Frankenphp and with Docker.
- **Project Query Optimization:** I solved the unoptimized query for big data where it was taking almost 10-11 seconds to load a page and I optimized it to load less than a second.
- **Student of the year:** Achieve the IsDB Student of the Year award, having the highest results among the IsDB TSP's students.
- **Got Featured:** My two projects got featured in IsDB websites. One is Soial media project and other one is storemanagement software project (POS)
